Dividing Decimals
by
Whole Numbers

Write the decimal point of the quotient above the decimal point of the dividend first. Then bring up your dollar sign. Divide as you would normally. You can check by multiplying.

$$\$1.62 \div 3$$

$$\begin{array}{r} \overset{1}{\$}.54 \\ \times 3 \\ \hline \$1.62 \end{array} \quad \checkmark$$

$$\begin{array}{r} \overset{1}{\$}.54 \\ 3 \overline{) \$1.62} \\ \underline{-15} \\ 12 \\ \underline{-12} \\ 0 \end{array}$$

$$29 \overline{) \$200.68}$$

Problem Solving

Mrs. Bartlett bought 8 pumpkins for \$66.24. Each pumpkin was the same price. What was the price of one pumpkin?

Practice

$$\$402.05 \div 17$$

$$2.745 \div 9$$

Workbook page 37 evens

- Worth 10 points a piece.
- Take off 5 points if they did not show their work.
- Take off 1 point if they didn't put a dollar sign in the quotient.
- If they did not include a decimal point it is totally wrong.
- Take off 2 points if the word problem is not in a complete sentence.
- Please write the correct answer for them if they got it wrong.
